EMC Most equipment utilizing high-speed transceivers will be re-

quired to meet the following requirements:

1) FCC in the United States

2) CENELEC EN 55 022 (CISPR 22) in Europe

To assist the customer in managing the overall equipment EMC performance, the transceivers have been designed to satisfy FCC class B limits and provide good immunity to radio-frequen-

cy electromagnetic fields.

Eye safety

The transceivers have been designed to meet Class 1 eye safe-

ty and comply with EN 60 825-1.
